TECHNICAL SKILLS:

Languages: C#, Html5, CSS, SQl

Frameworks & Libraries: .NET, ASP.NET MVC, Bootstrap, Git, GitHub, SASS, SQLite, PostgreSQL, Gulp.js

---

PROJECTS:

Movie Review App

This application was built using .NET MVC framework. This app utilizes individual user authentication. It allows user to create, delete, or update a movie as well as review which were stored in a SQL database. This app taught me concept of linking different tables together.

Gold Badge Console App

This app was built in Console Web App. It taught us how to use a console. I also performed some testing while building this application.

Car Website

This App was built using Visual Studio Code This web app sells different cars. Learned a lot more about utilizing HTML, CSS and FlexBox. Outcome was really good.

EXPERIENCE:

Microsoft .NET Student (July 2018 - Oct 2018)
